

# Ash

## Full-Stack Developer

ash@caffode.studio · +1 (555) 123-4567 · Remote / Worldwide

Full-stack developer specializing in fast, accessible products with modern JavaScript. From database to pixel, I ship clean, maintainable code.

### CORE SKILLS

---

- JavaScript / TypeScript (95%) · React / Next.js (92%) · Node.js / Express (88%)
- PostgreSQL / MongoDB (84%) · Tailwind CSS (93%) · GraphQL / REST (86%)
- Docker / CI-CD (80%) · AWS / Vercel (82%) · Python (78%)

### SELECTED PROJECTS

---

- E-Commerce Platform — Next.js + Stripe storefront with admin dashboard; 98 Lighthouse performance.
- Realtime Task Manager — collaborative kanban with live cursors and offline sync (WebSockets, CRDTs).
- Crypto Analytics Dashboard — streaming charts and alerting across 40+ exchanges.
- API Gateway & Docs — self-serve developer portal with generated SDKs and usage metering.

### EXPERIENCE

---

- Freelance Full-Stack Developer — 2021–present. 60+ projects shipped for 35+ clients; 99% on-time delivery.
- Focus: performance budgets, accessibility, and code the next developer will thank me for.
